Professional Summary

Final-year Master's student in Information Systems Security with hands-on expertise in **GRC, ISO 27001 auditing, and risk management**. Certified **ISO/IEC 27001:2022 Lead Auditor** with experience conducting internal audits, assessing security controls, and delivering compliance documentation aligned with international standards.

Professional Experience

Deloitte Tunisia

Cybersecurity Intern – GRC & Compliance

Tunis, Tunisia

Feb 2026 – Jun 2026

- Supported GRC activities including cybersecurity risk assessments, control gap analyses, and audit readiness reviews aligned with **ISO 27001** and regulatory frameworks.
- Evaluated **access control policies** and security governance procedures, identifying non-conformities and proposing corrective actions.
- Mapped organizational risks to applicable controls, supporting the continuous improvement of the **ISMS** and compliance reporting workflows.

ANCS Tunisia

Information Security Intern – ISO 27001 Audit & Risk Management

Tunis, Tunisia

Jun 2025 – Jul 2025

- Deployed an **ISO 27001-compliant internal audit platform** with role-based access controls, activity logging, and structured audit documentation including risk registers and control checklists.
- Participated in risk identification and treatment activities, mapping threats to ISO 27001 Annex A controls and recommending mitigation measures.

HRS Tunisia

Web Application Security Intern – Secure System Design

Tunis, Tunisia

Feb 2024 – May 2024

- Contributed to a financial platform design with emphasis on **data confidentiality, integrity controls**, secure API integration, and regulatory compliance across a multi-bank environment.

Projects

Internal Audit Report – TechConsult S.A.

- Conducted a full **ISO/IEC 27001 internal audit** across asset management, access control, and incident management; identified non-conformities and delivered a corrective action plan and formal report.

Third-Party Risk Assessment – Zoom Video Communications Inc.

- Assessed 10 security controls against **ISO 27001**, SOC 2, and GDPR; calculated residual risk scores and delivered a prioritized risk treatment report.

Education

Institut Supérieur de Gestion (ISG)

Master's Degree in Information Systems Security

Tunis, Tunisia

2024 – Present

École Supérieure de l'Économie Numérique (ESEN)
